

I am writing to plead for my local Air One music station, 92.7 or 102.7. I has done such a wonderful thing for my family and it would be discouraging to lose such a wonderful radio station. As it is right now, I have noticed that I am not recieving the signal very well at all, only about 50% of the time. I believe this station is very important to this community because it brings in a positive value that is hard to find.
